Press Release

ALEXIS OLIN

The Result of Habits

A walk into the dreams & obsessions of a restless mind

Exhibition: May 1 to May 14, 2025
Vernissage : Thursday, **May 8**, 6 PM - 11 PM

ArtVerse Gallery,
5 bis rue Beauce, 75003 Paris

ArtVerse, in collaboration with Lezar House, presents The Result of Habits, the first solo exhibition in Paris by visual artist Alexis Olin. Immersing viewers in an organic realm of forms, spirits, and shifting symbols, the exhibition explores childhood memory, dream projection, and the mechanisms of habit. Rather than offering meaning, Olin's works compel us to search for it, in the paradox of control and release, structure and instinct.

With a practice rooted in repetition and precision, Olin forges a singular visual language across mediums. His paintings oscillate between clean geometric compositions and raw, intuitive gestures, between ritual and impulse. Through vivid color palettes and recurring symbols like the eye or the gloved hand, The Result of Habits proposes a dialogue between personal identity and universal emotion. The exhibition invites viewers into a space where doing becomes seeing, and repetition becomes a path toward personal transformation, carried by the silent speed and explosiveness of life.

Press materials : High-resolution images and additional information are available upon request.

Olin

ALEXIS OLIN

« Alexis Olin's talent lies in endowing people with the ability to see their inner part through their own external gaze. And his genius, in elevating the absolute and indivisible notion of truth to a paradoxical and logical reality : subjective yet tangible, multiple but co-existing, intimate and universal. »
