

ALEXIS OLIN

Alexis Olin

Alexis Olin is a multidisciplinary artist working across painting, sculpture, digital art, photography, illustration, and textile design. His career spans more than two decades and is shaped by a lifelong fascination with visual systems, emotional patterns, and habitual processes. Known for fusing precision with instinct, his work explores the tension between structural control and raw expression.

In recent years, his practice has evolved into a hybrid dialogue between analog and digital media. His paintings, sculptures, and visual works created with acrylic, oil pastel, spray paint, photography, and digital techniques explore the intersection of habit and emotion, discipline and release. Recurring symbols including gloved hands, eyes, blades, rabbits, and abstract geometric forms appear throughout his work, evoking memory, childhood ritual, obsessive focus, and the fragile balance between tension and calm.

Alongside painting, Olin has recently expanded into sculpture through the creation of collectible rabbit figures that extend the emotional and symbolic universe of his paintings into physical form. These sculptural works combine toy culture, contemporary art, and personal mythology, continuing his interest in repetition, identity, and meditative states.

For Alexis, every medium whether canvas, sculpture, textile, photography, or digital space becomes a language for emotional transmission. At the core of his practice lies a belief that clarity in art emerges not only from inspiration, but from repetition, persistence, and the quiet discipline of returning to the work every day.

THE NORTHRIBAL

Hypnosis
Oil on canvas, 100 x 100 cm
